EDUCATION

Naraina College of Engineering and Technology, Kanpur

Master of Computer Application (MCA)

July 2025

Kanpur, India

SKILLS / COURSEWORK

- HTML
- CSS
- JavaScript
- MongoDB
- Express Js
- NodeJS
- React JS
- Tailwind CSS

PROJECT

Fanta Brand Website — HTML, CSS, JavaScript

- Developed a fully **responsive and visually engaging Fanta brand website** inspired by modern beverage branding.
- Designed an **interactive user interface** using vibrant colors, smooth animations, and hover effects to reflect Fanta's fun and energetic identity.
- Implemented **JavaScript-based interactivity**, including dynamic sections, animated transitions, and user engagement effects.
- Ensured **cross-browser compatibility** and mobile-first responsiveness for seamless performance across devices.
- Optimized layout and assets to deliver a **fast, smooth, and user-friendly experience**.

React E-Commerce Website — React JS, Tailwind CSS

- Developed a **full-stack e-commerce web application** using React for the frontend and Node.js with Express for the backend.
- Implemented **user authentication and authorization** including login and registration functionality.
- Built a fully functional **shopping cart system** allowing users to add, remove, and update products.
- Created REST full APIs for **product management, user management, and cart operations**.
- Ensured a **responsive, user-friendly UI** with smooth navigation and optimized performance.

TaxiNova Website — React JS, CCS, Express JS, MONGODB

- Developed a **ride-sharing web application** that allows users to book rides based on pickup and drop locations.
- Implemented **user authentication system** (login/signup) for secure access.
- Designed an intuitive UI for **real-time ride booking and fare estimation**.
- Integrated **location-based services** to calculate distance and optimize routes.

Flower- Website — React JS, CCS, Express JS, MongoDB

- Developed a **responsive flower e-commerce website** to showcase and sell floral products online.
- Designed an attractive UI with **modern layouts and custom CSS** for better user experience.
- Built **Add to Cart and Checkout functionality** for smooth purchasing flow.
- Integrated **user authentication system** (login/signup) for personalized experience.
- Developed backend APIs using **Node.js and Express** for handling product and user data.
- Used **MongoDB database** to store product details, orders, and user information.
- Ensured **mobile responsiveness and cross-browser compatibility**.
- Focused on **performance optimization and clean UI design**.

Gallery-Image-System— HTML CSS, Java Script

- Developed a **responsive image gallery web application** to display and manage images efficiently.
- Implemented **image upload functionality** with preview and validation.
- Designed a clean UI with **grid layout and custom CSS** for better user experience.
- Added features like **image filtering, search, and categorization**.

HRMS Portal: MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Developed a comprehensive Human Resource Management System (HRMS) to streamline employee and organizational workflows.
- Implemented employee management features including profile management, attendance tracking, leave management, and payroll processing.
- Designed secure authentication and role-based access control for Admin, HR, and Employee modules.
- Built RESTful APIs and integrated MongoDB for efficient data storage and retrieval.
- Developed responsive and user-friendly dashboards for employee performance monitoring and reporting.
- Automated HR processes to improve operational efficiency and reduce manual workload.

EXPERIENCE

MERN Stack Developer / Tech Trainer | Digi Coders

Technologies Sep 2025 – Present | 1 year

Working on full-stack web application development using MongoDB, Express.js, React.js, and Node.js, including API development, database management, authentication, deployment, and maintenance.
